A la carte Convair

NOWHERE in Europe can you fly in a classic Convair propliner — but you can have an excellent dinner in a Convair CV-440, near Rome's Leonardo da Vinci Airport.

The Ristorante Convair is ex-presidential transport MM61833, which entered Italian Air Force service in 1957 and was used by two leaders of the Italian Republic, President Segni and President Saragat, on many international missions. Known as *Il Presidenziale*, it served with the 31 Stormo as 31-1 until retirement in 1978.
